*You can panic if you want to*

The 2012 Beowulf Bash is upon us. We have decided to take a page from one of our favorite book series, *The Hitchhiker's Guide to the Galaxy* and bring you [The Hitchhiker's Guide to the Beowulf Bash](#). If you are attending [SC12](#) in Salt Lake, then you are invited to the most popular HPC community event in the galaxy. The lead sponsors for this year are [Adaptive Computing](#) and [Intersect360 Research](#). In addition, there are 22 other great sponsors who are supporting the event.

The party is a community event with plenty of music, fun, refreshments, and a free towel for the first 1000 attendees. As usual we will hold the event on Monday November 12 from 9PM-Midnight (after the Opening SC Gala). Be sure to check the [Invitation Page](#) for more information including some spot on Beowulf Bash Guide entries and a chance to talk to *Shallow Thought*. In case you miss it, there is long version of the guide [here](#).
